

Compass

Align your academic path with your inner strength

Team 3: Geni Williams, Kate Endersby, Makail Brooks

The Retention Crisis.

Students are choosing majors based on grades, not strengths. The result is anxiety, disengagement, and a massive revenue leak for universities.

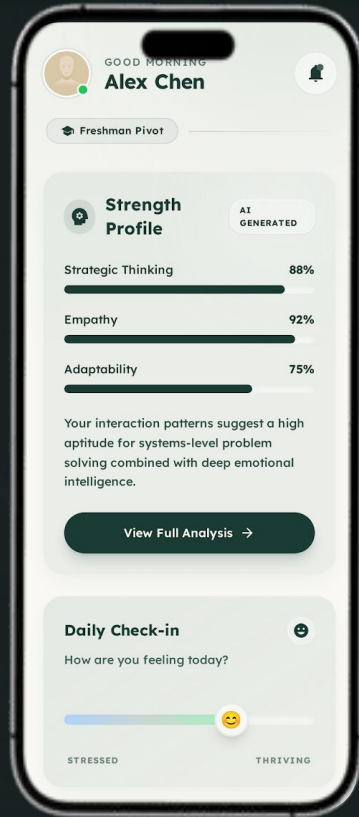

73.1%

**One-Year Retention Rate
(Non-Mentored)**

The Crisis

The First AI-Driven Student Lifecycle Platform

Freshman Year: The Pivot

Aligning majors with natural strengths.

Senior Year: The Transition

Near-peer emotional mentoring.

We don't just fix grades. We fix the fit.

Data-Driven Discovery.

We analyze interaction patterns—not just transcripts—to uncover a student's natural strengths. This prevents major-hopping before it starts.

AI GENERATED

Strength Profile

Strategic Thinking: 88%

Empathy: 92%

Adaptability: 75%

Your interaction patterns suggest a high aptitude for systems-level problem solving combined with deep emotional intelligence.
